

# Assignment #2

---

1. Represent the IT organization of two or more companies, including their governance model, or
2. Represent the main information systems of a company
  - Operational systems
  - Support Systems
  - Information Systems (MIS and DSS)

(Choose topic 1 or 2)

For each case, present a concept map (cmap) of a maximum of 12 concepts describing the concepts and how they relate themselves (1 slide) and a short explanation of each concept (1 slide)

Cmap: <https://cmap.ihmc.us/docs/theory-of-concept-maps>

Free tool available: <https://cmap.ihmc.us/> (or use PowerPoint...)
